

29 January 2009

Guidelines used by the Core Curriculum Council in its evaluation of courses for inclusion in the Texas A&M University Core Curriculum.

1. We will not accept courses with “generic” numbers. For example, XXXX 289 or YYYY 489 courses will not be included in the Core Curriculum.
2. For courses proposed for the International and Cultural Diversity category, ordinarily, at least one-third of the course should cover contemporaneous (last 30 years) subject matter.
3. Courses submitted for the Core Curriculum should not have pre-requisites that exclude non-majors.
4. Reminder. Existing courses that are intended to be cross-listed should be submitted together (separate forms).
