Energy Sustainability Engineering - Certificate

Explain how affected parties (students, faculty, staff) will be informed of the impending closure.

No students are currently participating in this program.

Explain how students will be helped to complete their programs of study with minimal disruption or additional expense.

No students are currently participating in this program.

Explain how faculty and staff will be redeployed or helped to find new employment.

Professor that created the certificate program and classes left TAMU in August 2014.

How many students are currently enrolled in the program?

0

Projected graduation date for the last student(s) in the program?

08/2014

Rationale for inactivation/deletion

Professor that created the certificate program and classes left TAMU in August 2014.

Upload teach-out agreements with other institutions.

Catalog Program Requirements

The certificate requires taking 3 courses to be selected from the prescribed electives list, plus one other course addressing a specific energy topic to be approved on a case-by-case basis. The 5 prescribed elective courses provide an overview of energy and sustainability, sustainability metrics, sustainability engineering design, energy economics and policy, and innovation.
