Learning Outcomes:

Meets traditional face-to-face learning outcomes.

Describe how learning outcomes are met or provide justification why they are not met.

Throughout the trip, students will be asked to keep a daily travel journal. This journal will be used to record observations; list new species; reflect on daily activities; reflect on cultural difference and similarities; process learning experiences; and articulate learning outcomes as they happen. This journal will serve as a record of student experiences throughout the trip. The combination of the individual and the group projects as well as the reflective journal will enable the achievement of all learning outcomes to be assessed.

Hours:

Meets traditional face-to-face hours.

Describe how hours are met or provide justification why they are not met:

Each day, students will meet with instructors in the morning and in the evening for approximately 1 hour each to discuss project, problems, and events. Throughout the trip, instructors will lead students on excursions designed to enhance their understanding of the culture, environment, and ecology of the Caribbean. This trips will involve active learning and lectures by the instructors. The rest of the trip will be spent allowing the students to work on research projects. Instructors will be available at all times the students are working for assistance, questions, feedback, and problem solving.
