Engineering Honors - Certificate

Explain how affected parties (students, faculty, staff) will be informed of the impending closure.

Concerned students, faculty, or staff will be informed by email

Explain how students will be helped to complete their programs of study with minimal disruption or additional expense.

This change has no effect on the students, as the process of guiding students to complete the honors distinction will not change. There are currently 1600+ students in the cohort. This change has no effect on the students, as the process of guiding students to complete the honors distinction will not change. There are currently 1600+ students in the cohort.

Explain how faculty and staff will be redeployed or helped to find new employment.

This is not applicable, as no faculty or staff will be affected by this change

How many students are currently enrolled in the program?

0

Projected graduation date for the last student(s) in the program?

08/2017

Rationale for inactivation/deleteon

Discontinued the Engineering Honors Certificate is needed to align Engineering Honors with the other Texas A&M honors programs, including University Honors, and all other College and Department honors programs. In particular, none of the other Texas A&M honors programs are certificates and all of the Texas A&M honors programs, including Engineering Honors, are already transcribed credentials.

Upload teach-out agreements with other institutions.
