THE FACULTY SENATE

January 13, 1998

Dr. Ray M. Bowen  
President  
Texas A&M University

Dear President Bowen:

Upon recommendation from the Academic Affairs Committee, the Faculty Senate, at its regular meeting held January 12, 1998, approved the following motion to change the 1997-98 Texas A&M University Student Rules, Number 10.10:

An undergraduate student's cumulative grade point ratio for any period shall be computed by dividing the total number of semester hours for which he or she received grades into the total number of grade points earned in that period. Semester credit hours to which grades of F or U are assigned shall be included; those involving grades of W, Q, S, X, I, and NG shall be excluded.

In addition to the cumulative grade point ratio for each student there is an adjusted grade point ratio. The adjusted grade point ratio is calculated in a manner similar to the cumulative grade point ratio, but reflects only the courses that are on the student’s degree plan.

The Faculty Senate also approved the following statement:

The words "grade point ratio" or "GPR" should be changed to "cumulative grade point ratio" or "cumulative GPR", respectively, wherever they occur in the Texas A&M University Student Rules or in the Texas A&M University Undergraduate Catalog.
Thank you for considering these items. Please inform me of your action on these recommendations.

Sincerely,
