Report of the Core Curriculum Council  
May 18, 2001  

The Core Curriculum Council recommends that the following course be added to the Visual and Performing Arts category of the Core Curriculum.

   ARCH 437 Great Cathedrals. (3-0) Credit 3. Interrelationships of architecture, sculpture and stained glass, technology and construction, function and form, society and patronage in the great period of medieval building.

In this case the CCC unanimously agreed that an exposure to and analysis of visual and performing arts, not just reading about them, were central to course content and character appropriate to this category of the Core Curriculum and, thus, justified this course, which involves exposure to and analysis of monuments of medieval religious architecture, being included in that category.
