Report of the University Curriculum Committee

July 6, 2001

The University Curriculum Committee recommends approval of the following:

Changes in Prefix

College of Geosciences
Department of Atmospheric Sciences
Change all undergraduate course prefixes
From: METR
To: ATMO
MEMORANDUM

TO:         University Curriculum Committee
FROM:       Mary Jo Richardson~
            Associate Dean
SUBJECT:    Change prefix of METR courses to ATMO

When the Department of Meteorology changed its name to the Department of Atmospheric Sciences all the graduate course prefixes were changed to ATMO. The undergraduate courses were left METR. This has led to some confusion. The Department of Atmospheric Sciences requests that the prefix for all METR courses be changed to ATMO.
