Core Curriculum Council

memorandum

28 September 2003

To: Executive Committee
   Faculty Senate

From: Richard K. Curry, Presiding Officer
       Core Curriculum Council

Re: Requests of Course Additions to the Core Curriculum

The Core Curriculum Council recommends that the following courses, submitted by the Department of Soil & Crop Sciences, by Julian Gaspar of the Finance Department and by Lawrence Wolken of the Finance Department respectively, be added to the list of courses in the Core Curriculum which satisfy the requirement for International and Cultural Diversity.

   AGRO 489 Social and Ethical Aspects of International Cropping Systems
   IBUS 446 Funding International Business
   FINC 445 Funding International Business

The CCC unanimously agreed that an exposure to and analysis of non-U.S. cultures and cultural differences, along with their impact on contemporary concerns, were central to this course’s character and appropriate to the spirit of this Core Curriculum requirement and, thus, justified the course being included in this category.
