**College of Agriculture and Life Sciences**
- Department of Forest Science
  - B.S. in Forestry
  - Forest Resource Management Option
  - Urban Forestry Option
MEMORANDUM

TO: Dr. Robert Knight, Chair
    University Curriculum Committee

THROUGH: Dr. Gene Nelson, Executive Associate Dean
    College of Agriculture and Life Sciences

THROUGH: Dr. Doug Slack, Chair
    COALS Undergraduate Program Council

FROM: Mike Messina, Associate Department Head
    Department of Forest Science

SUBJECT: Proposed Reduction in Forest Science Curriculum Hours to 120

The Forest Science Faculty have completed a review of our undergraduate curriculum. The following changes are planned for 2007-2008:

1. ENGL 210 or COMM 203 (do not require both - 3 hours)
2. Drop 3 hours Business Elective.
3. Drop 2 hours of free electives.
4. Drop FRSC 409 (no longer taught)

These changes will reduce the total number of required hours for both of the Forest Science degrees to 120.

If you have any questions or need further information, please contact me at 845-2547.
