4. Special Consideration

Dwight Look College of Engineering

Request to change grade requirements for all engineering certificate programs.
SPECIAL CONSIDERATION

DWIGHT LOOK COLLEGE OF ENGINEERING
ENGINEERING CERTIFICATE PROGRAMS
REQUEST TO CHANGE GRADE REQUIREMENTS FOR
ALL ENGINEERING CERTIFICATE PROGRAMS
MEMORANDUM

TO: Dr. Tim Scott
THROUGH: Dr. Robin Autenrieth
FROM: Jacqueline Hodge
DATE: March 27, 2012
SUBJECT: Engineering Certificate Programs

The Dwight Look College of Engineering (COE) would like request the ability to add a requirement to all Engineering certificate programs stating that all candidates must achieve a C or better in all required course work and/or activities and achieve an overall GPR of 3.0 or better in the certificate requirements.

The reason for this addition is to help convey to prospective candidates that COE certificates are designed to challenge and provide a career-focused edge over other students who have similar interests, but do not pursue a certificate. It is the COE’s belief that adding the grade requirement will fulfill the intended goals.
