New Program Request Form for Certificate Programs

Directions: An institution shall use this form to propose a new bachelor’s or master’s degree program. In completing the form, the institution should refer to the document Standards for Bachelor’s and Master’s Programs, which prescribes specific requirements for new degree programs. Note: This form requires signatures of (1) the Chief Executive Officer, certifying adequacy of funding for the new program; (2) a member of the Board of Regents (or designee), certifying Board approval; and (3) if applicable, a member of the Board of Regents or (designee), certifying that criteria have been met for staff-level approval. NOTE: Preliminary authority is required for all engineering programs. An institution that does not have preliminary authority for a proposed engineering program shall submit a separate request for preliminary authority prior to submitting the degree program request form. That request shall address criteria set in Coordinating Board rules Section 5.24 (a).

D. **Students** – Describe general recruitment efforts and admission requirements. How will students be accepted into the program? In accordance with the institution’s Uniform Recruitment and Retention Strategy, describe plans to recruit, retain, and graduate students from underrepresented groups for the program. **Only students who pursue an undergraduate degree in Economics and who complete a minor in Business Administration will be eligible for the Business Economics Certificate.** Students who are interested in econometrics and economic forecasting are encouraged by professors and advisors to take the Economics elective courses necessary to complete the certificate requirements. Additionally, all Economics students will see presentations about the program at their New Student Conference meeting and during required change-of-major seminars. The requirements fall within the 120-hour degree in Economics and most students will not need to take additional coursework.

E. **Library** – Provide the library director’s assessment of library resources necessary for the program. Describe plans to build the library holdings to support the program. **Current library holdings are sufficient. No new classes will be developed.**

F. **Facilities and Equipment** – Describe the availability and adequacy of facilities and equipment to support the program. Describe plans for facility and equipment improvements/additions. **No new facilities or equipment will be required.**

G. **Accreditation** – If the discipline has a national accrediting body, describe plans to obtain accreditation or provide a rationale for not pursuing accreditation. **Not Applicable.**

H. **Evaluation** – Describe the evaluation process that will be used to assess the quality and effectiveness of the new degree program. The Department of Economics reviews its courses and programs on a yearly basis. It will analyze employment placement positions for program participants and conduct selected exit interviews with students. Discussions about the efficacy and desirability of the program’s course contents also take place with potential employers at Texas A&M career fairs and at meetings at Economics Society functions.

I. **Administration of Program** – Describe how the program will be administered. Where will the program be administered (i.e., department, college)? **The program will be wholly administered within the Department of Economics.** During their graduating semester, students who complete the certificate requirements will fill out a Business Economics Certificate request form detailing which classes they completed and the semesters they completed them. Members of the Department of Economics advising staff will check the forms and will forward the information to the Office of the Registrar in a timely fashion to ensure the certificate designation is included on student transcripts.

1. Report costs for new faculty hires, graduate assistants, and technical support personnel. For new faculty, prorate individual salaries as a percentage of the time assigned to the program. If existing faculty will contribute to program, include costs necessary to maintain existing programs (e.g., cost of adjunct to cover courses previously taught by faculty who would teach in new program).
2. Specify other costs here (e.g., administrative costs, travel).
3. Indicate formula funding for students new to the institution because of the program; formula funding should be included only for years three through five of the program and should reflect enrollment projections for years three through five.
4. Report other sources of funding here. In-hand grants, "likely" future grants, and designated tuition and fees can be included.

Revised 01.14.2014
Signature Page

1. **Adequacy of Funding** – The chief executive officer shall sign the following statement:

   I certify that the institution has adequate funds to cover the costs of the new program. Furthermore, the new program will not reduce the effectiveness or quality of existing programs at the institution.

   ________________________________  ____________________________
   Chief Executive Officer                  Date

2. **Board of Regents or Designee Approval** – A member of the Board of Regents or designee shall sign the following statement:

   On behalf of the Board of Regents, I approve the program.

   ________________________________  ____________________________
   Board of Regents (Designee)                  Date of Approval

3. **Board of Regents Certification of Criteria for Commissioner of Assistant Commissioner Approval** – For a program to be approved by the Commissioner or the Assistant Commissioner for Academic Affairs and Research, the Board of Regents or designee must certify that the new program meets the eight criteria under TAC Section 5.50 (b): The criteria stipulate that the program shall:

   1. be within the institution’s current Table of Programs;
   2. have a curriculum, faculty, resources, support services, and other components of a degree program that are comparable to those of high quality programs in the same or similar disciplines at other institutions;
   3. have sufficient clinical or in-service sites, if applicable, to support the program;
   4. be consistent with the standards of the Commission of Colleges of the Southern Association of Colleges and Schools and, if applicable, with the standards or discipline-specific accrediting agencies and licensing agencies;
   5. attract students on a long-term basis and produce graduates who would have opportunities for employment; or the program is appropriate for the development of a well-rounded array of basic baccalaureate degree programs at the institution;
   6. not unnecessarily duplicate existing programs at other institutions;
   7. not be dependent on future Special Item funding;
   8. have new five-year costs that would not exceed $2 million.

   On behalf of the Board of Regents, I certify that the new program meets the criteria specified under TAC Section 5.50 (b).

Steve:

I do not have an issue with using the term Business for the certificate.

Do you know who the contact person is in Mays that has not responded? If you can let me know, I will follow up with that individual.

I suggest you send the proposal forward. Between now and the UCC meeting, I will confirm with the Associate Dean for Undergraduate Programs that your use of Business is okay.

Dear Jon,

The Department of Economics is proposing a certificate, “Business Economics Certificate.” The courses are exclusively taught in the Economics Department and the certificate will be available only for Economics majors.

I told the head of the department, Dennis Jansen, to clear this with the Mays School of Business insofar as the certificate contains the word “Business.” I did not want anyone to think that we were trying to do an end-around.
Dr. Jansen apparently has tried several times to get a letter but to no avail. The deadline for submitting this to the UCC is noon tomorrow.

If I decide to submit this so that it can go into next year's Catalog, will you raise an objection? If so, should I table this then until we receive a letter of support?

Many thanks,

Steve
