Justification for this request

**Inactivating VPAT 642 and combining with VPAT 640 (request submitted 9/14/2018)**  
**The justification for making VPAT 640 4 credit hours and removing VPAT 642 is that, for the past several years, these 2 courses (2 credit-hours each) have been taught as a single, combined T-R course (VPAT 640 on Tuesday; VPAT 642 on Thursday). Students are/were required to register for and attend/participate in both. Having them listed as 2 separate courses created confusion since Howdy does not indicate to the students that registration in both courses is required. Additionally, with separate course coordinators, one course coordinator couldn't see the enrollment for the other course to cross-check enrollees. The instructors also have had to create 2 separate syllabi and schedules for essentially the same course. It would be simpler for both students and instructors to officially combine the courses since they are, in practice, already being combined. The change to 4 credit hours is because the combined class will meet 4 hours per week.**
