Rationale for Proposal

~~Anthropology is a STEM discipline that cuts across the social sciences and the humanities. During the past decade, the field of anthropology has become increasingly scientific, not just in its theory and method but also in its practical application. The development of new technologies and their use in anthropological contexts have created a critical need for scientifically trained professionals. The new B.S. degree will provide anthropology students with an opportunity to correct acquire a typo stronger background in Rule F of the major section on the degree evaluation, expand the science course options students can take to include those courses needed sciences (by completing university and core requirements for professional school prerequisites and the various science minors, and to update ICD/CD language as requested by the College. B.S. Please see the updated degree evaluation attached for more detailed information. degrees) and to master scientific analytical skills in the anthropological discipline in preparation for relevant professional careers.~~

Total Semester Credit Hours			120

1 31 hours required; 12 hours must be in residence; 12 hours must be in upper-division courses. A grade of C or higher is required for a course to count in the major.

2 Up to 6 hours may be selected from 200-299, 6-12 hours may be selected from 300-499

3 No anthropology course will satisfy this requirement.

5Please see departmental advisor for list of additional science courses.

4Courses may also be used to satisfy any other requirement.

Writing Courses

All students are required to take two courses with the writing attribute, also known as "W-courses", from the department. Substitutions with W-courses from other departments are not allowed. Please see the academic advisor for the most current list of Anthropology W-courses.

Minor Requirements

Anthropology majors have the option of selecting a minor field of study from departments or divisions within or outside the College of Liberal Arts or in a particular area of interest (as with interdisciplinary minors or career opportunity minors). Minors typically consist of 15-18 hours or coursework, at least 6 of which must be at the upper-division level. A minor should be declared before the student has completed 90 credit hours.

College and University Requirements

Other courses may qualify for this category. Students should consult the approved lists of courses available through the academic advisor in the Department of Anthropology or in the Undergraduate Student Services Office in the College of Liberal Arts. The following list incorporates University Core Curriculum requirements. No course can be counted in more than one category, with the exception of courses used for the [international](#) ~~international~~ and [cultural diversity or the cultural discourse](#) ~~Cultural Diversity~~ requirement. To promote the opportunity for anthropology majors to acquire a broad educational experience, anthropology students must satisfy their University requirements for language, philosophy and culture, social and behavioral sciences, and the sciences with courses other than those offered by anthropology. Students must complete a minimum of 36 hours of 300- or 400-level coursework at Texas A&M University.
